

Board Self Assessment Tool

The CSA Board Self Assessment Tool takes just 15–20 minutes to complete and provides vital information to understand the health of your school board operations.

Assessment Options

Self Assessment | Basic

The basic option involves a self-assessment by individual Christian school boards of the results of a CSA online survey undertaken by Board members. After contacting CSA, schools are issued with an individualised link to the survey and a unique password to ensure that data cannot be accessed by others externally. Other parameters in relation to the survey are determined with CSA. Board members complete the survey online.

Once the survey is completed, CSA will collate the responses and provide a report to the board. Please note, CSA will not analyse the survey responses or make any commentary on the results. All member schools can undertake one such survey a year, free of charge, with any additional surveys incurring a small administration fee.

Self Assessment | Plus

The Self Assessment Plus option also involves each individual member undertaking the CSA online survey. After contacting CSA, schools are issued with an individualised link to the survey and a unique password to ensure that data cannot be accessed by others externally. Other parameters in relation to the survey are determined with CSA. Board members complete the survey online.

The Self-Assessment Plus package takes the basic self-assessment process further, with CSA staff reviewing the survey results and making appropriate comments and observations. Included in the Self Assessment Plus package is an optional 30-minute discussion with a CSA representative and your Board about the results of the assessment report.

Cost of this service: \$750 +GST
